HARLEY-DAVIDSON FINANCE

Do you want to own a Harley-Davidson motorcycle, but you don't have the cash to buy it outright?
Financing your bike allows you to pay for your motorcycle over a period of time.

We offer flexible repayment options and specialised financing for all credit types. Richardson's Harley-Davidson & Buell will customise your financing based on your needs. Financing can be arranged on the spot, and it only takes a few minutes to determine your eligibility.

New or Used Motorcycles

Through Harley-Davidson finance, you may finance the motorcycle of your dreams – new or used models dating back to 1903.

You may have used our service before, but did you know we can finance other vehicles as well, including cars, trucks and boats?

Have it all

Shouldn't you have it all? The motorcycle, the clothes, the accessories and the security? We think you should. Below is a list of items you may finance in your motorcycle loan:

- Parts & Accessories
- Riding Gear
- Comprehensive insurance
- Transfer of registration
- Financial GAP protection
- Consumer credit protection

By financing these items in your loan, you save yourself from the expense of additional purchases down the road. In addition most parts installed from delivery are covered by the two-year new bike warranty.

When you finance the purchase of your motorcycle, your name goes on the title. Once the loan is repaid, you become the outright owner. In addition you may sell or trade-in your motorcycle at any time. (conditions apply)
